Task Statement for Military Occupational Structure Identification - 00378 Cyber Operator

A-MD-154-000/FP-000 - Appendix 1, Annex D

MOSID 00378 Cyber Operator (CYBER OP)

General Duties:

A Cyber Operator collects and analyzes data from CAF computer network systems in support of network defence operations in both deployed and non-deployed environments. They monitor networks for potential intrusions and abnormalities and examine networks for vulnerabilities in defensive and offensive postures. They conduct forensic investigation of cyber incidents and maintain specialized cyber toolsets unique to the occupation.
