FORT GEORGE G. MEADE, Md. — Today, the Cyber National Mission Force, a unit subordinate to U.S. Cyber Command, posted its first malware sample to the website VirusTotal. Recognizing the value of collaboration with the public sector, the CNMF has initiated an effort to share unclassified malware samples it has discovered that it believes will have the greatest impact on improving global cybersecurity. For members of the security community, CNMF-discovered malware samples will be logged at this website:
